

Iryna Sukhovolets

Village: The Village at Market Street

Owner: 3 years

Prior Involvement in DC Ranch:

I have mostly been involved in DC Ranch community through DC theater productions, classes, and activities. My daughter's involvement in different local performances and camps gave me a wonderful opportunity to volunteer and to meet a lot of parents and their kids.

Biography:

I am originally from Ukraine (Polish/Ukrainian inheritance). I lived in New Jersey/New York before moving to Scottsdale in 2008.

My academic background includes Master's Degree with Honors in International Relations and Diplomacy, Completed Event and Conference Management studies at NYU and The US Institute of Peace, Membership and acting as the Co-chair at The International Special Event Society, working at the consulate/embassies, publishing manuals for students, volunteering and internship at American Jewish Historical Society.

In 2012 I have established a successful online retail company selling luxury designer goods within US and internationally. At the same time, I am a homeschooling mother to a wonderful 13 y.o. daughter Abigail.

I strongly believe that my academic and professional background has contributed to my problem-solving skills, the ability to navigate different work environments and find a "common denominator" with different kinds of people. I am a team player while always ready to undertake the leadership role when necessary. Being self-employed has mastered my self-discipline and responsibility. Having a retail company has polished my ethical and inter-personal skills. Home-schooling my daughter has taught me the importance of planning and being efficient in everything that I do.

Statement of Purpose:

My vision is that DC Ranch will be characterized by its beauty and its desirability as a place to live, its financial responsibility, its outstanding recreational facilities and social activities (especially through children/youth involvement), its protection of property values, and its prestigious place on the map of Scottsdale. All decisions made should reflect, support, and enhance the quality of life of our community.

At the same time, the future of DC Ranch is in the hands of its succeeding generations - our kids and grandkids. Our community should create the warmest and best memories in the minds of our children so they will always appreciate and take care of their "nest" and will long for coming back to raise their families here.
